Functions

Comfort

Soft simple design and grid shell structured backrest helps you relax in style.

The flexibility of the fabric and the 3D gradation urethane cushion provides superior comfort.

The flip back design reduces pressure points on the backrest and is also easy to grip.

The perforated seat cover and spacer fabric allows for greater breathability .

The seat height is easily adjusted to suit your working style.

For extra comfort the backrest pad can be easily attached. (Options)

Compact

Space efficiency is achieved at nesting pitch of 125mm (5 inch).

Even with the armrest type, Runa can be used (as shown) with the standard size 1,800mm (70 7/8 inch) sidefold table.

Support

Nesting type 150mm (6 inch) with Foldaway A3 tablet PP W/B.

Meeting chair with A4 Melamine table top Horizontal movement with 80 swivel.

Storage available for all normal nesting types.

Mobility

The 50mm (2 inch) diameter nylon caster provides durable mobility.

The high tensile steel frame is robust and light.

The compact design means it is simple and quick to change your office layout.

Safety

The seat damper moves slowly, avoiding unwanted noise and the risk of trapping fingers.

Framework support is setback beneath the seat to reduce risk of trapping fingers.

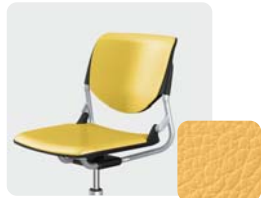

The grip ring for the high chair allows for greater stability while sitting and when you get on and off.

Surface

The 3D knit fabric has durable anti-snagging properties and highly flexible structure, giving high breathability for greater comfort.

The synthetic leather is highly durable and suitable for use in highly demanding areas such as hospital scenario's.

Ecology

Recycled materials :

27%

Recycled materials are used in steell and resin parts. These materials make up about 27% of the product weight.

Recyclability :

100%

With easy disassembly and recycling always in mind, Okamura products are designed so materials can be thoroughly separated into the same groups.
